3 March 2023

To Whom It May Concern,

**Subject: Introduction of Indel to newly assigned territory**

This letter serves to confirm recent changes to our distribution network in the Americas. As designated by Rolls-Royce Power Systems AG (RRPS) and effective January 1<sup>st</sup> 2023, Indel Power Group, LLC (Indel) has new distribution responsibility in Pennsylvania, Delaware (only the county of New Castle) and New York (only the counties west of and including the counties of St. Lawrence, Lewis, Oneida, Madison, Chenango and Broome).

Rolls-Royce Solutions America Inc. (RRSA) is the US based entity (wholly owned subsidiary) of RRPS and therefore able to directly support Indel in the newly assigned territory for all commercial markets served. Indel includes the entities Western Branch Diesel, Johnson and Towers and Curtis Power Solutions. Penn Power Group will continue to be an RRPS representative for parts business with the Federal Government.

Indel through its entities has been a partner to Rolls-Royce Solutions since 1967, has 25 branches in 10 states throughout the Northeast US. The group has extensive experience throughout the product line and markets served. As a distributor they have full capabilities in engineering, field service, sales, local parts inventory, and warranty support.

We welcome you to join us in this transition and offer the information below should you have any questions or concerns, please do not hesitate to contact us.

Sincerely,

**Matthew Reaume**  
Director, Network & Distribution Americas
